

Guidance

In this technical challenge, you'll build a multi step form. You can work with CSS, HTML and JavaScript or any other technology of your choosing.

- Aim to complete as much of the technical challenge as you can.
- This technical challenge should take approx. 3-5 hours to complete.
- If you run out of time, please just make notes of how you would complete the technical challenge.
- You can utilise any Editors, Tools (Visual Studio code etc) of your choice.

Requirements

- You should aim for a faithful reproduction of the screen designs (Screen 1, Screen 2)
- Validation must be set for required fields
- Validation must be set to ensure a correctly formatted email address is provided
- The confirmation box on screen 2 must be checked before submission is allowed
- The site must be fully mobile responsive.
- Generative AI should not be used.
- Any further improvements you may have in mind
- Please upload your submission to GitHub and provide us a link
